

Could the
Lhasa Cloud

be the best hosting option for you?

Many organisations are moving to cloud
and are benefiting from...

**Vitic, Mirabilis and Kaptis
are available on the Lhasa Cloud**

[Read our cloud offerings blog here](#)
[Request more information here](#)

Significantly **quicker installation**
in comparison to the server
hosted option

Faster, easier updates
minimising
work interruption

Reduced internal IT burden
as the software is hosted on
our (AWS) Lhasa cloud

Secure by design
Multiple layers of protection, continuous
monitoring and evolving controls to
meet any new security threats

Reduced data centre
footprint, as **no additional
server space is required**

Efficient troubleshooting
directly with Lhasa if any
issues arise

Single sign on
is supported
