

Benefits of **Data Sharing within Vitic**

Vitic is the core component of Lhasa's data sharing projects.

Our Vitic data sharing projects include:

[AI/PDE](#), [Aromatic Amines](#), [Excipients](#), [Elemental Impurities](#)
and [Production Intermediates](#)

Time and cost savings

Save time and money by reducing the need to repeat experiments

Improved quality

Achieve more relevant results by making use of another organisation's data

Define best practice

Advise on the best approach through collaborative working

Shared knowledge, shared progress

Overcome challenges as a unit by discussing shared problems with your peers

Informed decisions

Make informed decisions by gaining access to data that is not in the public domain

In keeping with our philosophy that shared knowledge leads to shared progress, Lhasa Limited is a facilitator of collaborative knowledge and pre-competitive data sharing projects. Lhasa has a reputation as an expert in its field, trusted by its members to handle sensitive and confidential intellectual property (Elder *et al.* 2015)
